

Ultraviolet-C LED Sterilization Case kills %99.9 of bacteria.

-  Rapid and effective new generation sterilization in 3 minutes: Easy and effective sterilization with UVC LED technology.
-  Portable Design: Ideal for use at home, hospitals and offices.
-  Easy Use: Fast and effective sterilization in 3 stages. Plug in the device, place the item you will sterilize and push the button. %99.9 of sterilization process takes place in 3 minutes.
-  No radiation, no ozone, no chemicals. UVC LED; disinfects and eliminates up to %99.9 of germs, viruses and bacteria. It does not require water or chemicals.

UVC LED with 265 ~ 285 nm wavelength

Works with 200 ~ 240VAC

Easy and effective sterilization with professional **UVC LED** technology in *4 different color* options.

Regular

Medium

Large

DB-300 G-UVC

Operation Voltage
200~240VAC 50/60Hz
Power Consumption
25W

Light Source
UV-C LED

UV Wavelength
265~285nm

Operating Time
180s

Case Material
PP

Interior Dimension
463x338x65mm

Exterior Dimension
530x400x133mm

Weight
3300g

DB-330 G-UVC

Operation Voltage
200~240VAC 50/60Hz
Power Consumption
38W

Light Source
UV-C LED

UV Wavelength
265~285nm

Operating Time
180s

Case Material
PP

Interior Dimension
463x338x110mm

Exterior Dimension
530x400x180mm

Weight
3700g

DB-360 G-UVC

Operation Voltage
200~240VAC 50/60Hz
Power Consumption
38W

Light Source
UV-C LED

UV Wavelength
265~285nm

Operating Time
180s

Case Material
PP

Interior Dimension
463x338x160mm

Exterior Dimension
530x400x228mm

Weight
3900g
