

It emits ultraviolet rays at a wavelength of 390~405 nm.

# Volans® UV-A

1000mm

It can be used with an adapter and provides the opportunity to work in the range of 19 ~ 30VDC.

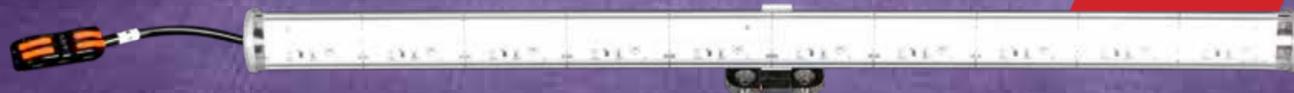

It offers different mounting options with screw, magnet and ceiling hanging ropes.

Practical use with 500mm models on / off button on the product.

500mm

500 ~ 3000mm

9W ~ 54W @ 24 VDC

Power

Housing	: PC housing and cover
Diffuser	: Transparent, diffuser
LED Source	: UV LED
Diameter	: 27,5 mm
Diagonal Diameter	: 29,25 mm
Input Voltage	: 19 ~ 30 VDC

Power Consumption	: 9~54W@24 VDC
Color Temperature	: UV-A (390-405nm)
Working Temperature(Ambient)	: 0°C ~ +40°C
LED Quantity	: 120 LED/m
Max. Length That Can Be Powered From A Single Line	: 6m (144 Watt)

500mm	= 9W
1000mm	= 18W
2000mm	= 36W
3000mm	= 54W
